AFTAB KHALID

UX DESIGNER

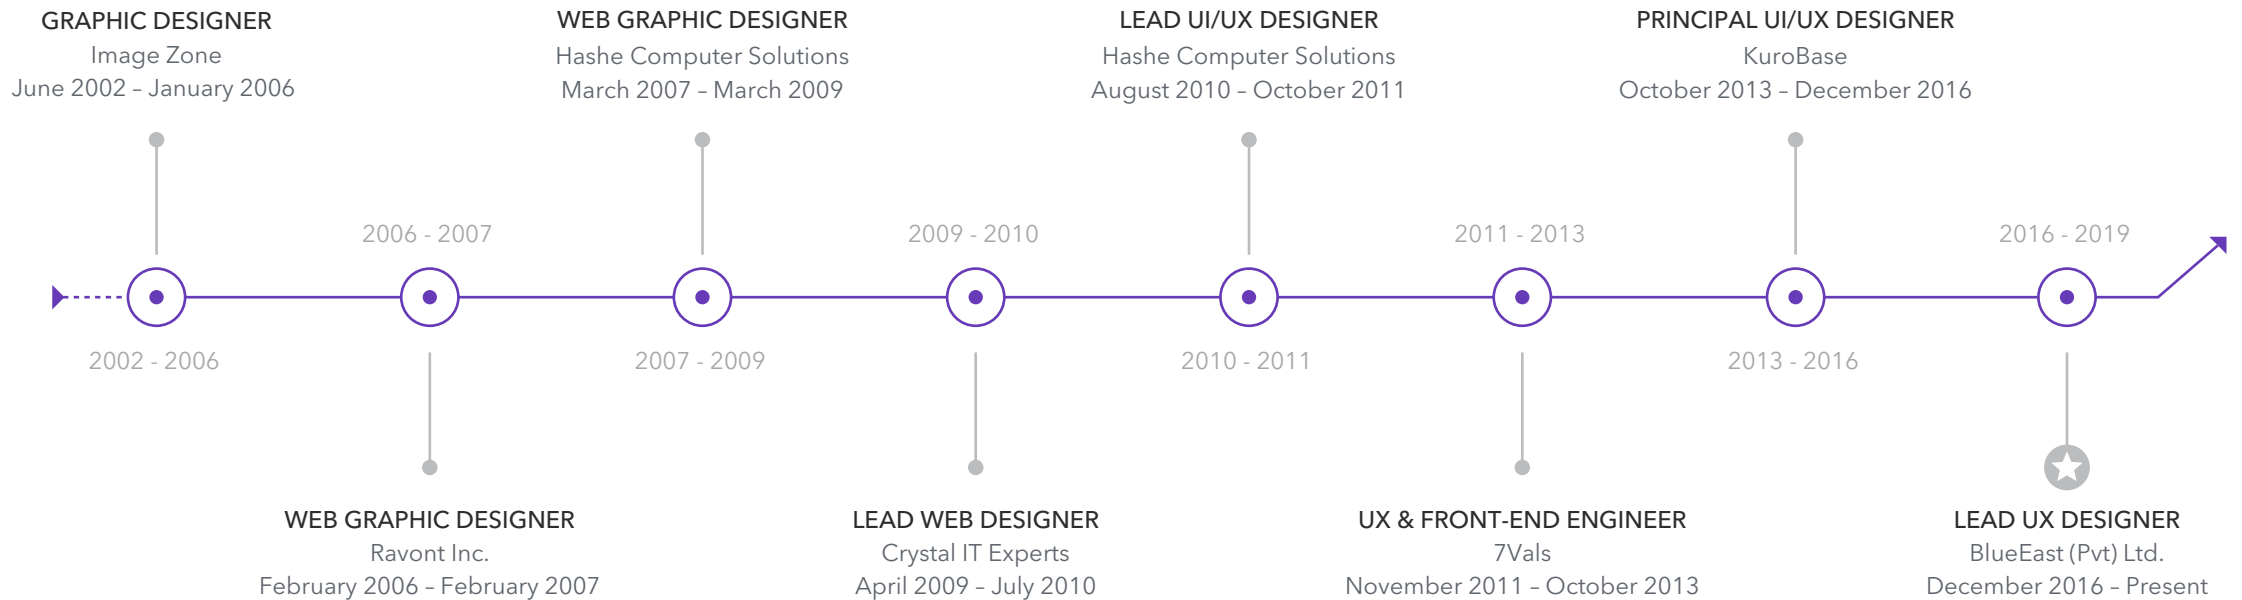

I'm Aftab Khalid, a Lahore based User Interface and User Experience Designer. I spend my days sketching, designing in Photoshop, Illustrator, Adobe XD and writing scalable HTML and CSS.

For over 15 years I have used my knowledge of web design to help businesses small and large create effective and easy to use apps and websites. I have worked in several different capacities within the industry and have developed a well rounded set of skills to deliver consistent and measurable results.

I manage projects from beginning to end – whether it is determining initial goals and objectives, pitching concepts to stakeholders, or working to bring ideas to life using the latest technology, I have the skill and experience your organization needs.

WORK EXPERIENCE

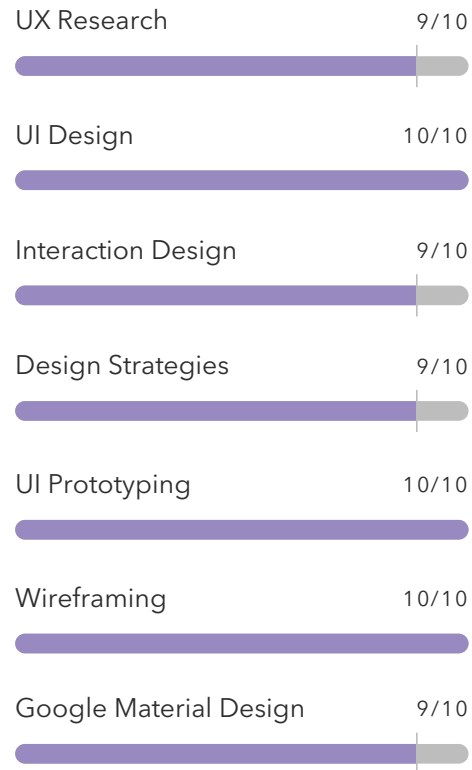

! I create design clean, simple and interesting.

WHAT PEOPLE SAY!

"Very good designer and a hard worker. He is an asset to my company. His work ethics are second to none and also a die-hard COD2 player."

– Mamoon Rashid
CEO at Hashe

"I have worked with many people over the time. Aftab Khalid is one of most natural and gifted Web/ Graphics designer. His ability to self learn & master new technologies, techniques. He have one more special thing; his smile, he can won hearts by his evergreen smile."

– Atif Tasneem
Co-Worker at Revont

"I have always enjoyed working with Aftab on various Design Projects. His work is in line with our high demanding clientele here in the UK. I feel Aftab is always able to create good designs every time as he has never disappointed me a single time. He has achieved this by making new concepts every time, and not one design is similar to the other. He is able to follow client requirements very well and makes sure he does his research before he starts designing. All his work is definitely up market and unique and i definitely do look forward to working with him on any up coming projects. Keep up the good work Aftab."

– Norman Yousaf
CTO at Crystal IT Experts
